

The follow-up committee of civil society organizations held a consulting meeting, in the presence of layers and representatives of civil society organizations.

When the meeting finished, the follow-up committee issued an announcement delivered aloud by the general coordinator Dr. Kamel Mohanna :

The committee is pursuing its campaign to prosecute Israel and set up a road map :

- 1- coordinating with concerned Palestinian institutions and committees to prepare the files including all the crime wars committed by Israel .
- 2- addressing to the Security council in the purpose of establishing a crime-investigation commission.
- 3- Holding talks with the arab systems to bring local and international lawsuits.
- 4- Communicating with arab prime ministers for the same purpose.
- 5- Collaborating with arab lawyers union , lawyers syndicate and judicial bodies to follow-up this issue.
- 6- Filing lawsuits via people with dual nationalities in the western countries and collaborate with international assemblies to file lawsuits against Israeli commanders.
- 7- Following up with civil society organizations and political authorities in the west and Arab world to support this map.
- 8- Combining efforts to criminalize Israel and re-open crime-wars files committed during and before July war 2006 in Lebanon .
- 9- Participating in Durban conference held in Geneva next in the 2nd of April , in the meetings of human rights council in March in collaboration with all international organizations and civil society organizations in Lebanon .

The follow-up committee pursued the lawsuit filed by 320 French committees in Paris to the international court of justice via the lawyer Jilles Duvurs and other Arab judicial bodies.

The aim of this road map is bypassing the phase of "Reaction" and move to the "practical" phase i.e. prosecute war criminals of Israel, and keep on pressuring to provide the fundamental legitimate rights of the Palestinian population.
